Avery Castillo

Machine Learning Engineer

avery.castillo@example.com · (713) 555-0156 · Houston, TX

Summary

ML engineer shipping clinical models and LLM tools under HIPAA.

Skills

Python, PyTorch, scikit-learn, Pandas, SQL, MLflow, FastAPI, Docker, Google Cloud, pgvector

Experience

Machine Learning Engineer, Sabine Health AI — Apr 2022 – Present

• Trained PyTorch models that flag sepsis risk from vitals.

• Built a retrieval-augmented generation assistant over care guidelines using pgvector.

• Tracked experiments in MLflow and served models with FastAPI in Docker on Google Cloud.

• Worked under HIPAA controls on de-identified patient data.

Data Scientist, Brazos Analytics — Jan 2020 – Mar 2022

• Built churn models with scikit-learn and Pandas.

• Ran A/B testing and statistical analysis in SQL and Python.

Education

M.S. Data Science, Rice University
