Dana Okafor

Site Reliability Engineer

dana.okafor@example.com · (318) 555-0190 · Shreveport, LA

Summary

SRE with six years running Kubernetes and Terraform-managed AWS infrastructure.

Skills

Kubernetes, Terraform, AWS, Docker, Helm, Argo CD, GitHub Actions, Prometheus, Grafana, Linux, Bash, Go

Experience

Senior Site Reliability Engineer, Red River Cloudworks — Feb 2021 – Present

• Operated 14 Amazon EKS clusters running 300 services packaged with Helm.

• Wrote Terraform modules for every AWS account and enforced them in GitHub Actions.

• Introduced Argo CD for GitOps deployments.

• Built Prometheus alerts and Grafana dashboards; led on-call for the platform team.

DevOps Engineer, Caddo Data Systems — Jan 2018 – Jan 2021

• Moved legacy apps into Docker containers on Linux hosts.

• Built Jenkins CI/CD pipelines and Bash tooling; wrote a small Go CLI for deploys.

Education

B.S. Information Technology, Louisiana Tech University
